

Memories captured

ART An ISB alumnus found an interesting way to capture fond memories during the reunion this year

The Indian School of Business (ISB) recently hosted Solstice, its annual alumni reunion, at its Hyderabad campus. To commemorate the 10th year reunion of class of 2004, Mayura Balasubramanian, an alumnus, conceptualised an artwork titled 'Kaleidoscope'. Those attending the reunion were asked to bring with them an item that reminded them of their student year and these were then used to assemble a collage. Some of the contributions in-

cluded academic course pack covers, newsletter issues, tee shirts, drumsticks and a badminton racket and other quirky items, each of which came with its own unique story.

The collage was then signed by the alumni. It was unveiled by the institution's dean Ajit Rangnekar and is now on display at the ISB campus. This year's Solstice had over 600 alumni participating along with their families.
